

Everett Public Schools

Everett High School

December 28, 2004

Dalcione Reis has worked in the Mathematics Department at Everett High School since August 2003. As the Principal's liaison to the Grade 9 Teaching Teams (of which Ms. Reis is a part), it is my responsibility to directly supervise and evaluate teachers. In fulfilling my responsibilities, I have had considerable contact with Ms. Reis relative to her teaching duties and professional responsibilities.

In all respects, I have found Ms. Reis to be an extremely professional, dedicated and competent teacher. In addition, Ms. Reis has a very positive relationship with her students. She utilizes numerous methods of instruction and assessment so as to approach and recognize the varied learning styles of her students. The goals and objectives that she sets for her students during lessons are challenging and realistic. Her assessment of her students occurs many times, and in a variety of ways, during the lesson. She has demonstrated an ability to adjust her plans during a lesson in order to meet the needs of her students.

As a part of one of the Grade 9 Teaching Teams, Ms. Reis' Team has been called upon to develop both interdisciplinary projects and lessons that enhance the vocabulary of the students. Ms. Reis' ideas and contributions have played an important role in the development of such grade level projects and lessons.

I believe that Ms. Reis is an outstanding young teacher. She has been a true asset to her Teaching Team and to the students that she has taught. In addition, she is timely and thorough in meeting her professional responsibilities. I highly recommend her for a teaching position. If you have any questions, please feel free to call me.

Sincerely yours,
